progress...

A further few weeks into the 'big build' and here's a brief insight into what we have been up to...

- ✓ The first concrete pour to the ground floor has been completed
- ✓ Core driller commenced on site to grind out parts for the mechanical and electrical
- ✓ Steel mesh installed ready for the remaining concrete slab to be poured
- ✓ Cedar cladding completed
- ✓ Plasterers have started skimming walls
- ✓ Farmscape cladding completed

whats next...

over the next couple of weeks...

- ✓ Fascia's and soffit's to continue
- ✓ Remaining slab to be installed – did you know an element of the concrete has come from France?
- ✓ Ground worker to continue with external drainage runs
- ✓ M&E throughout
- ✓ Slate roofing to commence once the fascia's and soffit's have been completed
- ✓ Remaining internal partitions
